उद्देश

National Civic Information & Accountability Platform

"हर नागरिक को अपने अधिकार,
अपने क्षेत्र और सरकार के काम की जानकारी।"

उद्देश्य (Purpose)

- पारदर्शिता (Transparency)
- जवाबदेही (Accountability)
- सशक्त नागरिक (Empowered Citizens)
- सशक्त भारत (Stronger India)

1 High-Level Vision

Udesh is a Civic Data Platform (not just an information app) that unifies all government schemes, development works, fund utilisation, elected representatives' public records, ration distribution and grievance redressal into one hierarchical, source-verified, offline-capable system for every citizen of India.

Core Formula:

India → State → District → Block → Panchayat/ULB → Ward

Online + Offline | Only Official Sources

2 Information Architecture (Hierarchy Table)

Level	What User Sees	Key Data
Nation	All States overview	National schemes, Central dashboards
State	Selected State home	State schemes, districts list, state works
District	District dashboard	Blocks, MLAs, major projects, funds
Block / ULB	Block / City view	Panchayats/Wards, local works
Ward / Panchayat	My Area Dashboard	Schemes for me, local works, Mukhiya, ration, complaints

3 My Area Dashboard

Example: Bihar → Patna → Phulwari Sharif → Ward 5

- **Schemes for Me** — 18 — Applicable schemes + days remaining
- **Ongoing Works** — 12 — Roads, drains, water, electricity etc.
- **Completed Works** — 37 — Finished projects with cost & date
- **Fund Tracker** — ₹ 2.4 Cr — Approved vs spent (Source linked)
- **Water Projects** — 8 — Handpumps, pipelines, water schemes
- **Electricity Works** — 6 — Poles, transformers, new connections
- **Schools / Hospitals** — 5 — Infrastructure & services
- **My Complaints** — 3 / 1 — Submitted / Pending
- **Representatives** — Mukhiya, MLA, MP + public records

4 Detailed Features

4.1 Schemes Module

- Central + State schemes in one list
- Status: Active / Closed / Coming Soon
- Days remaining + last date
- Benefit amount / type + eligibility
- Apply link + application status
- Source link + last updated date

4.2 Development Works Tracker

- Categories: Road, Drain, Water, Electricity, School, Hospital, Housing, Bridge, Employment
- Approved | Spent | Remaining
- Status: Proposed / In Progress / Completed / Delayed
- Start & expected/actual date
- Official source link

4.3 Fund Tracker

- Approved amount for work / scheme
- From which scheme/department
- Payment / expenditure records
- Supporting documents (where available)

4.4 Representatives Info

- Mukhiya / Sarpanch, MLA, MP
- Constituency / area + tenure
- Public records (works / questions)
- If any charges/cases → only official records with source

4.5 Ration Monitoring

- Fair Price Shop (FPS) information
- Distribution records
- Raise complaint option

4.6 Complaint Centre

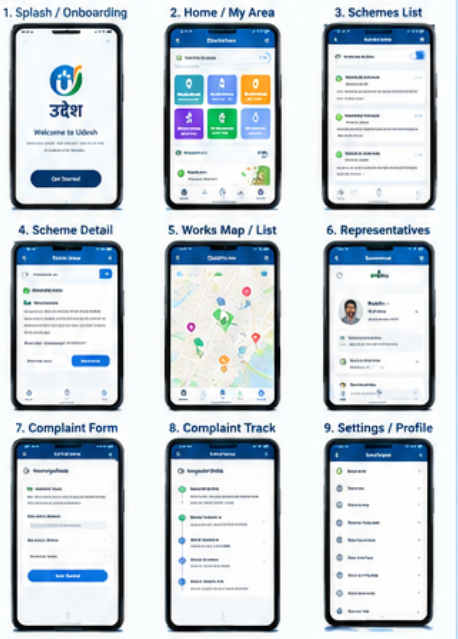

- Problem → Photo/Video → Location → Department → Submit
- Complaint No. + status tracking
- Next escalation officer/department
- Central/State level tracking

5 Design Principles

- **Source First** — Every data point carries official source + date + link.
- **Political Neutrality** — App never rates any leader as good/bad; only shows facts & records.
- **Offline First** — Core features work without internet; sync when online.
- **Simple Language** — Hindi + English + regional languages.
- **Low-end Device Friendly** — Works on basic Android phones common in rural areas.
- **Trust by Design** — "Data not available" is shown honestly instead of hiding gaps.

6 Key Screens (10)

1. Splash / Onboarding
2. Home / My Area
3. Schemes List
4. Scheme Detail
5. Works Map / List
6. Representatives
7. Complaint Form
8. Complaint Track
9. Settings / Profile

7 Data & Trust Layer

- **Source** — Which government website / document
- **Last Updated** — When the data was last refreshed
- **Status** — Verified / Data Not Available
- **Official Link** — Direct link to original record

Udesh is deliberately designed as a Civic Data Platform, not a social media style information app.

Every piece of information carries official source, so it never becomes a collection of rumours or social media posts.

Real Data + Official Source + Public Trust = Udesh

8 Rollout Plan

1. **Phase 1 – Bihar Pilot (0-6 months)**
   - Selected districts
   - Core modules (Schemes + Works + Complaints)
   - Test, feedback, improve
2. **Phase 2 – Full Bihar + 2-3 States (6-18 months)**
   - All districts of Bihar
   - Add Fund Tracker + Ration module
   - Expand to 2-3 more states
3. **Phase 3 – National Platform (18+ months)**
   - All states & UTs
   - Plug-and-play state connectors
   - Full feature set across India

जागरूक नागरिक
=
सशक्त लोकतंत्र

उद्देश

हर नागरिक की जानकारी,
हर क्षेत्र का विकास।
